

PREMADE AIR HOSES FOR THE CONSTRUCTION INDUSTRY

Compressed air service is always a critical application; the hoses you rent need to hold up to the wear and tear seen with equipment rental industry. Rely on experts that understand your applications to connect you with products that are fit for the application.

Compressed Air Hose hoses see significant changes in heat and pressure and need to be assembled in a way to protect the operators using them. We prioritize SAFETY FIRST when assembling hoses for compressed air. Standard end configurations including Male NPT and Nut Ground Joint Couplings. Call us to determine what configuration meets your needs.

PREMADE COMPRESSED AIR HOSES FOR THE CONSTRUCTION INDUSTRY

Compressed air hoses designed for high pressure and heat, Rubberworx™ air hoses are the perfect solution for your turnaround needs. Built with both textile and braided steel wire the hoses provide a 4X working pressure safety rating. Hose is pin pricked to prevent blistering covers from compressed air. Our assembly staff are NAHAD certified and have years of experience with industrial hose fabrication. Trust the experts with this critical application hose!

Hoses are pressure tested and can be tagged with asset numbers. If you need a system for managing these assets, ask your local representative about our OnGuard™ asset management program or visit our website at www.hosesafety.com to learn more.

PREMADE COMPRESSED AIR HOSES READY TO GO
